

CHALLENGE:

**Natural Neo-Natal
Neuroprotection**

To create an optimal environment that provides the best conditions to support the ideal development of infants in the NICU

SOLUTION:

Paladin Healthcare

- Adaptable Lighting on both macro and micro scales that adjust to circadian rhythms, diagnostic, task, and ambient lighting requirements
- Organizing all Clinical Support Technology on an equipment rail for optimized work-flow placement
- Free-up floor space for Parental access to the infant, improved safety, and infection control.
- Support Family Integrated Care initiatives
