

CHALLENGE:

How to safely and efficiently treat patients in every kind of unconventional areas...

- Hallways
- Isolation Areas
- Waiting Areas
- Mass Casualty scenes
- Indoors / Outdoors

SOLUTION:

The Paladin Flexible Treatment Station is the ideal solution to those needs. Using the largest selection line of accessories, the "F.T.S." is fully customizable and is endlessly reconfigurable to the end users' requirements.

Patients need care...everywhere.

The M.T.S. ensures that clinicians have everything they need to provide the best possible treatment anywhere it's needed.

THE ULTIMATE TOOL FOR THESE AREAS:

1. Hallway Patient Management
2. Forward Triage in waiting rooms
3. Mass Casualty/Surge patient management
4. Psych Rooms: all services can be removed from the room on demand at once

FULLY CUSTOMIZABLE FOR MOBILE CONTROL AND MANAGEMENT OF:

1. Infection Control Devices
2. Delivery of Oxygen and Fluids
3. Patient Monitoring
4. Supplies Management
