Cable and Supply Management in the Operating Room

PALADIN HEALTHCARE®

CHALLENGE:

How to maximize organization of hoses, cables and supplies for anesthesia in the O.R.?

Before

After

The ever-increasing need for technology in the O.R. demands a flexible and adaptable tool to manage and organize the space. The Paladin Equipment Rail and supporting accessories are specifically designed to support all aspects of operating room needs.

SOLUTION:

Paladin Healthcare Manufactures a wide variety of cable and supply management tools to organize every aspect of anesthesia related equipment and associated cables and hoses. Users can define individual solutions as desired.

- Scrub Sink Organization
- Anesthesia Hoses
- I.T. Cables
- Med Gas / Vacuum Hoses
- Infection Control Devices
