EQUIPMENT MANAGEMENT

PALADIN HEALTHCARE®

CHALLENGE:

Mounting equipment directly to the wall is a costly proposition when changes need to be made.

The inevitable changes damage finishes and furnishings that often cannot be repaired—Corian, wall covering, laminate, veneer, etc.

SOLUTION:

Create and support a highly functional clinical environment now and make changes for decades to come without lost patient room revenue.

- Compatible with large scale equipment management tools from GCX, Human Scale, Ergotron, and many others

The “Evolution” Medical Equipment Management Rail System provides for nearly unlimited reconfiguration of equipment and accessories. Simply unlock the adapter and items snap-on and snap-off at will.

- Make changes without moving patients. No lost patient stay revenue.
- Complete new product changes in days instead of weeks or months.

Easily make any necessary changes while the patient is in the room and without compromising their safety or comfort.

- Proprietary embedded anti-microbial technology in our plastic adapters and powder coated items.
