Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails

How to read our part numbers (*very important*)

Part numbers ending in “-P” = Mounting Plate (Rail Mounting Solution without Accessory)

This means the item to be mounted is NOT included in the purchase. It’s just the mounting plate and adapter kit necessary to mount the item to the rail. Some additional installation maybe required to a 3rd party device.

Part numbers ending in “-PM” = Product Mounted (to Mounting Plate)

This means the product itself is Paladin factory mounted to the plate and adapter kit necessary to mount the item to the rail. The item and adapter kit are both included in the price. Maybe used for its intended purpose out of the box.

Part numbers including “HV” = Horizontal or Vertical (mounting options)

This means the mounting plate has integral options for mounting the item either horizontally, or vertically, on the rail.

Part numbers ending in “-K” = Kit (2 or more Rail Mounting Solution in a Kit)

This means it is a top-level part number incorporating several mounting plates with or without accessories attached (see item description for more details) to fulfill specific requirements.

How our Evolution rail system works

For an image-based explanation, see page 6: “Required Parts and Pieces”

We use a 3-Part system to turn your wall mounted items into a componentized method of mounting and managing your equipment in a way that is flexible, adaptable, and expandable now and throughout the lifecycle of the facility.

1. Rail (Evolution Equipment Rail)
2. Plate + Adapter = Mounting Kit
3. traditionally wall mounted Item

The mounting kit marries the traditionally wall-mounted item to the rail. Items can be locked in place on the rail by tightening the Allen screws on the bottom of the adapter.

When a change of devices or process is necessary, simply snap the item off of the rail, snap it onto the rail in its new location, test your new workflow process, and lock the items to the rail when the layout is efficient. Change is a Snap!

We have hundreds of product mounting solutions available

If you don’t find what you need in this catalog, please call us! We might have a solution already! If we haven’t, we are more than happy to design one for you!

EVOLUTION: Required Parts and Pieces

Paladin Healthcare's Fairfield-style Equipment Rail System

Paladin's Fairfield-style Equipment Rail with inlay

Adapters – every "mounting kit" includes an adapter

Mounting Plate

Device

****The Mounting Kit is determined by the device to be hung on the rail. User provides device specification.****

End Cap

Rail

Screw holes drilled at 16" on center

Adapter behind mounting plate

mounting plate

A1132

**In this example kit:
M4200-K**

Adapter and Mounting plate are attached together as a single "mounting kit" by Paladin Healthcare. Simply attach the pre-fabricated kit to the rail and hang the device onto the screws.

Screws that match size and location of hole pattern found on the back of the device

**In this example device:
M4200**

User provides make and model of the item to be mounted. Paladin Healthcare determines which adapters and plates are used on a per product basis.

Devices may or may not be included. Refer to catalog description for device inclusion information. Consult your sales rep for details.

Most Flexible Product Available in the Industry

Paladin Healthcare unique and “salient” features are as follows:

1. Anti-Microbial finish on the plates, adapters and wall stand-offs.
2. Wall stand-off to reduce leaning and the “bounce” effect when using a device.
3. Multiple holes to attach future products from different vendors without the need to purchase new plates each time.
4. The ability to adjust the rail mounting adapter to different heights relative to the fixed rail, allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.

Pictures below show:

1 item – same adapter - 4 different heights

FOR THE OFFICIAL CSI MASTER FORMAT SPECIFICATION, PLEASE REQUEST IT FROM THE MANUFACTURER.

SPECIFICATION: EVOLUTION Fairfield-Style Equipment Management Rail By Paladin Healthcare™ LLC

PART NUMBER: R-2XX

** Image shown is a seamless fit in a modular casework application and does not include end caps. **

- **EVOLUTION Equipment Management Rail:** a seamless, extruded aluminum profile with clear anodized finish containing a groove for attaching an adapter that supports the Owner supplied specified hospital accessories and equipment and includes termination caps at each end. The groove and adapters are designed so that the adaptor requires a seven degree tilt for attachment. The rail is designed to accommodate a seamless Wilsonart laminate decorative color inlay the length of the rail up to ten feet in length.
- **EVOLUTION Equipment Management Rail** shall be specified in one to ten foot lengths as shown on drawings or indicated on purchase order to accommodate room conditions. Rail will be cut to exact lengths as indicated. For lengths greater than ten feet, a JOINER piece is used to attach together multiple pieces of rail to meet the required total length. **The length of the rail is nominal for the rail only and does *not* include the end caps. Use of two end caps increases the total length of the rail by ½”.
- **EVOLUTION Equipment Management Rail** is pre-drilled on sixteen-inch centers (minimum) with the exception of a one-foot rail length which has two mounting holes drilled at eight inches on center. The Rail may also be field drilled by the installer to accommodate specific job site conditions.
- End caps shall be constructed of injected molded thermoplastic and shall resist most hospital cleaning and disinfecting chemicals. The color shall be white and molded throughout the material. End caps shall be friction-fit without use of fastening devices.
- Decorative inlay shall be supplied by Paladin for installation by the owner or contractor. Inlay is Wilsonart laminate in the standard finish which will resist most hospital cleaning and disinfecting chemicals. Color shall specified by the Owner. Specialty coating finishes can be made available for additional cost and lead time. Alternate laminate manufacturers may be specified for additional cost and lead time. Contact manufacturer for details.
- Option to powder coat rail with anti-microbial finish (AMF) in select colors. Contact manufacturer for details.

EVOLUTION: RAIL INSTALLATION INSTRUCTIONS

1. When rails are mounted in accordance to manufacturer's installation instructions, rail shall accommodate function loading up to 62-foot pounds of torque per foot between 16" centers.
2. The recommended Evolution Equipment Rail loading should not exceed 20 pounds of weight per linear foot.
3. The Evolution Equipment Rail loading capability is as well a function of dry wall load bearing capacity, drywall mounting/installation, and quality of installation hardware.

**** Installer MUST use 1/4" mounting hardware appropriate to wall construction type or to the installation method required.**

Contact manufacturer with any installation questions at (407) 614-8781

**** Refer to the relevant elevation drawings and other specification documentation for quantity and location details for each project.**

Step 1
Mark height
Level rail

Step 2
Drill holes
Use drill bit size 1/2"

Step 3
Prepare 1/4" toggle type
wall anchors

Step 4
Insert 1/4" toggle type wall
anchors in locations as
marked

Step 5
Align and tighten
to the wall (see step 6)

Step 6
Image for reference

Step 7
Bend until plastic cracks,
flush to the wall

Step 8
Re-align the rail.
Insert and tighten
1/4" screws

Step 9
Insert provided inlay strip
and secure end caps
on both sides

Step 10
Finished product

**CROSS SECTION
OF THE FINISHED PRODUCT**

Warranty Statement

The Paladin Healthcare line consists of (1) products manufactured by and labeled as Paladin Healthcare, and (2) items NOT originally manufactured by and/or private labeled by Paladin Healthcare.

(1) Paladin Healthcare Manufactured and Labeled Products

Products (non headwall/gas/electric) manufactured and labeled items consist of Equipment Rail, Adapters, Medical Gas Blocks and associated accessories that are factory-attached to an adapter.

These products are warranted to be free from defects in materials and workmanship for life, from the invoiced date of purchase from Paladin Healthcare or its authorized dealers or distributors, provided such products were installed and/or used in accordance with Paladin Healthcare's published installation or operating documentation.

Products (Headwall/Architectural) that are pre-manufactured assemblies for delivery of medical gas and electrical services are warranted to be free from defects in materials and workmanship for 5 years from the invoiced date of purchase from Paladin Healthcare or its authorized dealers or distributors, provided such products were installed and/or used in accordance with Paladin Healthcare's published installation or operating documentation.

If a defect is found and reported to Paladin Healthcare, the company will, at its option, repair or replace the product(s) at no cost to the customer.

(2) Not Originally Manufactured or Privately Labeled Products

Not originally manufactured or private labeled products consist of items such as medical gas outlets installed or not installed in gas blocks, ophthalmoscopes, oxygen/air flow-meters, vacuum regulators, medical gas hoses, etc.

These products will bear the Warranty as described by the original equipment manufacturer.

Products that have been modified or altered in any manner by anyone other than Paladin Healthcare, or used in applications not intended for their use, are excluded from coverage under this Warranty. Any device not manufactured or otherwise provided by Paladin Healthcare or used without the express written consent of Paladin Healthcare to connect, attach or in any manner whatever join another manufacturer's product to any Paladin Healthcare equipment rail shall cause the Warranty to be null and void.

To make a claim under this Warranty, claimant must be the original purchaser of the product and must have an invoice or similar evidence satisfactory to Paladin Healthcare that establishes the date of purchase prior to making the claim. All claims are to be made directly to the Paladin Healthcare corporate office.

No product return will be accepted unless accompanied by a return authorization, which can be obtained by contacting the Paladin Healthcare corporate office.

The remedies contained in this Warranty are expressly agreed to be exclusive as a condition of sale.

THE TERMS OF THE PALADIN HEALTHCARE WARRANTY ARE COMPLETE AS PRESENTED HERE. THESE WARRANTIES SHALL NOT APPLY TO THE COMPANY'S PRODUCTS OR ANY PART THEREOF THAT HAVE BEEN SUBJECT TO ACCIDENT, NEGLIGENCE, ALTERATION, ABUSE, OR MISUSE. THESE WARRANTIES SHALL APPLY ONLY WITHIN THE BOUNDARIES OF THE CONTINENTAL UNITED STATES, U.S. TERRITORIES, AND CANADA. PALADIN HEALTHCARE WILL NOT BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES, NOR FOR CUSTOMER'S LOST PROFIT OR FOR ANY CLAIM OR DEMAND AGAINST CUSTOMER BY ANY OTHER PARTY, AND CUSTOMER AGREES TO INDEMNIFY AND HOLD PALADIN HEALTHCARE HARMLESS FROM ANY COSTS, LOSS, OR EXPENSE SUFFERED OR INCURRED, INCLUDING ATTORNEY'S FEES, IF ANY SUCH CLAIMS ARE MADE. THIS LIMITATION ON PALADIN MEDICAL PRODUCTS' LIABILITY WILL APPLY REGARDLESS OF THE FORM OF ACTION, WHETHER IN CONTRACT OR IN TORT. THERE ARE NO OTHER WARRANTIES EXCEPT AS EXPRESSLY SET FORTH OR REFERENCED ABOVE, WHETHER EXPRESSED OR IMPLIED, INCLUDING WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE.

Diagnostic Equipment Management

Rail Mounting Solutions

For Any Make and Model

Instruments are also available upon request

Mounting Plate

for owner provided Welch Allyn aneroid BP sphygmomanometer Tycos 509 (Welch Allyn product is not included)

Item Number: DEM106-P

Requires user defined JSN number

Dimensions:

1.5”H x 5.5”W x 1”D

Weight: 1lb

Suggested for use in conjunction with SM-101 BP cuff basket

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Mounting Plate

for owner provided Baum
Aneroid BP sphygmomanometer
(Baum product is not included)

Item Number: DEM116-P

Requires user defined
JSN number

Dimensions:
3.5"H x 3.5"W x 1"D
Weight: 1lb

Suggested for use in conjunction with
SM-101 BP cuff basket

Item Description:

- Mounts to "EVOLUTION," Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer's devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Mounting Plate
with BP cuff basket factory
attached

Item Number: SM101-PM
JSN Number: M4100-RM

Dimensions:
7”H x 6.75”W x 4”D
Weight: 2lbs

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Mounting Plate
with Welch Allyn 71420 tray
for owner provided 71140 desk
charger (charger and
instruments are not included)

Item Number: DEM103-PM

Requires user defined
JSN number

Dimensions:
1.5”H x 7.5”W x 4.75”D
Weight: 3lbs

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Combination Mounting Kit:
Mounting Plates for both owner provide Welch Allyn ophthalmoscope (models 767/777) and owner provided specula holders (Welch Allyn products are not included)

Item Number: DEM198-K
JSN Number: M4200-RM

Dimensions:

Specula Mounting Plate:

2.5”H x 6”W x 1”D - Weight: 1lb

Ophthalmoscope Mounting Plate:

6”H x 2.5”W x 1”D - Weight: 1lb

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Mounting Plate

for owner provided Welch Allyn ophthalmoscope (models 767/777)
(Welch Allyn products are not included)

Item Number: DEM108-P

Requires user defined JSN number

**Dimensions:
6"W x 2.5"H x 1"D
Weight: 1lb**

Item Description:

- Mounts to "EVOLUTION," Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer's devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

MADE IN THE USA

Mounting Plate

for owner provided Welch Allyn
specula holders (Welch Allyn
product is not included)

Item Number: DEM109-P

**Requires user defined
JSN number**

Dimensions:

2.75"W x 4"H x 1"D

Weight: 1lb

Item Description:

- Mounts to "EVOLUTION," Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.

- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Mounting Plate

for owner provided Welch Allyn
“Connex Integrated Wall
System” comprehensive
diagnostic center (Welch Allyn
products are not included)

Item Number: DEM105-P

**Requires user defined
JSN number**

**Dimensions:
7”H x 11”W x 1”D
Weight: 2lbs**

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Complete Mounting Plate Kit with 4ft rail, adapters and BP cuff basket for the equipment components of the owner provided Welch Allyn 777 diagnostic instruments on a 4ft Rail

Welch Allyn products are not included.

Item Number: DEM100-4-K

Requires user defined JSN number

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Harley Ellis Devereaux

Standard Process Handwashing System in Patient Rooms;
All new patient care units

EBD Goal:

To create a standard process that facilitates the practice of appropriate hand washing prior to caregiver interaction with the patient.

PROBLEM: Per the CDC, many studies have shown that **the bacteria that cause hospital-acquired infections are most frequently spread from one patient to another on the hands of healthcare workers.**

In 34 studies of hand washing, workers washed their hands only 40% of the time.

SOLUTION: Create a standard directional flow with easy access to sink and hand washing accessories at the room entry. **“...placing the hand washing accessories on an equipment rail allows adjustment in the system without creating damage to the wall and potential home for pathogens.”**

Soap / Sanitizer / Wipes

Rail Mounting Solutions For Every Brand and Model Number

Universal Mounting Plate
for most owner provided wide
body soap / sanitizer
dispensers (dispenser and
sanitizer are not included)

Item Number: IC110-P

- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer's devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Mounting Plate
with PPE dispenser,
small, ABS plastic

**Universal small box dispenser
for shoe cover, cap,
and other items horizontal top
feed or vertical side feed
application**

Item Number: IC275-HV-PM

**Requires user defined
JSN number**

**Dimensions:
13.75"W x 5.75"H x 7"D
Weight: 2lbs**

*Customer to define mounting preference
(horizontal or vertical) at time of order.*

Item Description:

- Mounts to "EVOLUTION," Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

**Mounting Plate with
catheter container mount
and internal dividers**

Item Numbers: SM206-PM

**Requires user defined
JSN number**

**Dimensions:
6"W x 4"D x 18"L
Weight: 3lbs**

Item Description:

- Mounts to "EVOLUTION," Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer's devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

**Mounting Plate with
Tripp Lite hospital grade
4 outlet power strip**

Item Numbers:

DEM130-P (Plate only)

DEM130-PM-2 (2ft cord)

DEM130-PM-6 (6ft cord)

DEM130-PM-10 (10ft cord)

DEM130-PM-15 (15 ft cord)

**Requires user defined
JSN number**

Dimensions:

9”H x 2.5”W x 1”D (plate only)

Weight: 1lb

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Mounting Plate
with FERNO Safe Pac Holder for owner
provided FERNO bags. Available in 3
different colors: red, white and blue

Item Numbers:

SM501-PM

PR-FN504B (medium bag)

PR-FN504R (large bag)

Requires user defined
JSN number

Dimensions:

11”H x 13”W x 1”D (plate only)

13”H x 18”W x 9”D (small bag)

19”H x 18”W x 9”D (large bag)

Weight: 2lbs (plate only)

5lbs (small bag), 6lbs (large bag)

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Mounting Plate with FERNO pouch mounting plate, including wall stand off
for owner provided micro, small and large FERNO supply pouches

Item Numbers: FN101-PM

Requires user defined JSN number

**Dimensions:
16"W x 18"H x 2.5"D
Weight: 6lbs**

Item Description:

- Mounts to "EVOLUTION," Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer's devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

FERNO **Inventory Supply Pouch**

Item Numbers:

PR-FN-502 (small pouch)

PR-FN-501 (large pouch)

**Requires user defined
JSN number**

Dimensions:

4.5”H x 8”W x 2.5”D (small)

10”H x 8”W x 2.5”D (large)

Weight: 2lbs

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

**Mounting Plate with
FERNO inventory supply
pouch plate**

**This plate is for every size of
FERNO pouch**

Item Numbers: FN-502-PM

**Requires user defined
JSN number**

**Dimensions:
8"W x 4"H x 1.5"D
Weight: 1lb**

Item Description:

- Mounts to "EVOLUTION," Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer's devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

FERNO large wall mounted wall cabinet, available in red, white or blue

Item Numbers: FN-503

Requires user defined JSN number

Dimensions:

**13”H x 24”W x 13”D (small)
13”H x 36”W x 13”D (medium)
13”H x 47”W x 13”D (large)**

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Mounting plate with white supply cabinet with 1/4" clear polycarbonate door

Item Numbers: SM220-PM

Requires user defined JSN number

**Dimensions:
23.5"W x 11.75"H x 11.75"D**

Item Description:

- Mounts to "EVOLUTION," Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer's devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Mounting plate with supply cabinet with 1/4" frosted polycarbonate door

Item Numbers: SM221-PM

Requires user defined JSN number

**Dimensions:
23.5"W x 11.75"H x 11.75"D**

Item Description:

- Mounts to "EVOLUTION," Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer's devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

**Mounting plate with bed
bumpers and wall stand offs
(pair)**

Item Numbers:

AC115-28-WHT (28" high)

AC115-37-WHT (37" high)

**Requires user defined
JSN number**

Dimensions:

4"W x 28"H x 5"D – 5lbs

4"W x 37"H x 5"D – 6lbs

Item Description:

- Mounts to "EVOLUTION," Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer's devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Kits A1131, A1132, A1133

Hole patterns subject change due to 3rd party product changing configurations

JSN Number A1131

Paladin Item Number: DEM100-K-4

A seamless, horizontal, extruded aluminum equipment mounting rail with clear anodized finish containing a groove for attaching a variety of adapters that support various accessories and equipment. Rail is pre-drilled on sixteen-inch centers with two friction-fit end caps. The rail will accommodate a seamless laminate decorative color inlay. Color to be coordinated with interior design palate. The rail system utilizes a series of mounting plates and adapters specific to the device being mounted to the rail. This rail configuration includes specific mounting plates for a speculum container, a thermometer, an ophthalmoscope, a blood pressure manometer and a cuff wire basket using snap action adapters with positive snap attachment lock feature. Adapter plates are aluminum with anti-microbial powder coat painted finish. Accessories requiring heavy-duty capacity will require extruded aluminum adapter(s) and/or wall stand offs for added strength. The rail system must be capable of mounting and dismounting equipment without leaving or creating new holes in the finished surface of the wall.

JSN Number A1131

Paladin Item Number: DEM100-K-4

Kit includes the following:

R204	4ft Rail
DEM109-P	Mounting plate for speculum container
DEM110-P	Mounting plate for thermometer
DEM108-P	Mounting plate for ophthalmoscope
DEM106-P	Mounting plate for blood pressure manometer
SM101-PM	Cuff wire basket incl. rail mount kit

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Hole patterns subject change due to 3rd party product changing configurations

JSN Number A1132

Paladin Item Number: DEM802-K-4

A seamless, horizontal, extruded aluminum equipment mounting rail with clear anodized finish containing a groove for attaching a variety of adapters that support various accessories and equipment. Rail is pre-drilled on sixteen-inch centers with two friction-fit end caps. The rail will accommodate a seamless laminate decorative color inlay. Color to be coordinated with interior design palate. The rail system utilizes a series of mounting plates and adapters specific to the device being mounted to the rail. This rail configuration includes specific mounting plates for a sharps waste disposal unit, a triple glove box dispenser and a cleaning/disinfecting wipes holder using a snap action adapter with positive snap attachment lock feature. Adapter plates are aluminum with anti-microbial powder coat painted finish. Accessories requiring heavy-duty capacity will require extruded aluminum adapter(s) and/or wall stand offs for added strength. The rail system must be capable of mounting and dismounting equipment without leaving or creating new holes in the finished surface of the wall.

JSN Number A1132

Paladin Item Number: DEM802-K-4

Kit includes the following:

R204 4ft Rail

IC303-P Mounting plate for waste disposal unit Sharps

IC227-3-PM Triple gloves box dispenser, incl. rail mount kit

**IC112-PM Cleaning / disinfection wipes holder,
incl. rail mount kit**

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Hole patterns subject change due to 3rd party product changing configurations

JSN Number A1133

Paladin Item Number: DEM801-K-2

A seamless, horizontal, extruded aluminum equipment mounting rail with clear anodized finish containing a groove for attaching a variety of adapters that support various accessories and equipment. Rail is pre-drilled on sixteen-inch centers with two friction-fit end caps. The rail will accommodate a seamless laminate decorative color inlay. Color to be coordinated with interior design palate. The rail system utilizes a series of mounting plates and adapters specific to the device being mounted to the rail. This rail configuration includes specific mounting plates for hand soap and hand sanitizer dispensers, single fold paper towel dispenser, or hands-free sensor paper towel dispenser using a snap action adapter with positive snap attachment lock feature. Adapter plates are aluminum with anti-microbial powder coat painted finish. Accessories requiring heavy-duty capacity will require extruded aluminum adapter(s) and/or wall stand offs for added strength. Towel dispensing device type selection to be made during detailed planning artifact development. The rail system must be capable of mounting and dismounting equipment without leaving or creating new holes in the finished surface of the wall

JSN Number A1133

Paladin Item Number: DEM801-K-2

Kit includes the following:

- R202** **2ft Rail**
- IC110-P (2x)** **Mounting plate for hand soap and sanitizer**
- IC401-P-H** **Mounting plate for paper towel dispenser, sensor**

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Mobile Treatment and Transport Systems

Applications for Surge Alternate Care Sites and Mass Casualty

PART NUMBER: IM601 (Requires user defined JSN number)

DESCRIPTION: METS 1:
Mobile Equipment Transportation System

NOTES: Bed mountable equipment transport solution to facilitate patient monitoring and infection control right at the bed during patient transportation or for temporary hallway use.

PART NUMBER: IM501 (Requires user defined JSN number)

DESCRIPTION: METS 2:
Mobile Equipment Transportation System

NOTES:

- Patient transport cart which docks to a patient bed or stretcher to manage and organize equipment during patient transport
- Includes (2) infusion poles and (5) EVOLUTION equipment rails
- Supports medical delivery, patient monitoring, supply, and infection control tools
- Stable weighted base that is powder-coated in an anti-microbial finish
- Heavy-duty rubberized non-skid casters, 2 of which are lockable
- (20) Linear Feet of usable equipment rail space for custom location of all accessories based on immediate need
- Adjustable transport docking device will adapt to uneven surfaces or emergency Trendelenburg positioning

PART NUMBER: MC101 (Requires user defined JSN number)

DESCRIPTION: F.T.S.
Flexible Treatment Station

NOTES:

- Manage all clinical and support equipment in forward triage or hallway overflow conditions
- Use as a flu screening cart in the ED waiting areas to alleviate throughput
- Able to supply locking drawers and a variety of work surfaces and file organizers for admission forms, etc.
- Stable weighted base that is powder-coated in an anti-microbial finish
- Heavy-duty rubberized non-skid casters, 2 of which are lockable
- (20) Linear Feet of usable equipment rail space for custom location of all accessories based on immediate need
- Adjustable transport docking device will adapt to uneven surfaces or emergency Trendelenburg positioning
- Includes (2) infusion poles and (5) EVOLUTION equipment rails
- 26"W x 26"D x 60"H (without IV pole) – 77"H with max IV pole

PART NUMBER: ???? (Requires user defined JSN number)

DESCRIPTION: Small Cart

NOTES:

- Manage all clinical and support equipment in forward triage or hallway overflow conditions
- Use as a flu screening cart in the ED waiting areas to alleviate throughput
- Able to supply locking drawers and a variety of work surfaces and file organizers for admission forms, etc.
- Stable weighted base that is powder-coated in an anti-microbial finish
- Heavy-duty rubberized non-skid casters, 2 of which are lockable
- (20) Linear Feet of usable equipment rail space for custom location of all accessories based on immediate need
- Adjustable transport docking device will adapt to uneven surfaces or emergency Trendelenburg positioning
- Includes (2) infusion poles and (5) EVOLUTION equipment rails
- 26"W x 26"D x 60"H (without IV pole) – 77"H with max IV pole

PART NUMBER: MC102 (Requires user defined JSN number)

DESCRIPTION: Mass Casualty Rapid Deployment Equipment Management System

NOTES: Portable and easily stored Equipment Management System for rapid deployment in any situation. Application on rough terrain is accommodated through use of heavy duty Tri-Pod Stand which will “self level”.

- Includes (2) tri-pods with (2) carrying cases (2) 4ft rails with rail joiner in canvas pouch
- Sturdy and stable
- Pre-Hospital or In-Hospital
- Perfect for MCI Tent Applications
- Can be stored in a closet, MCI Trailer or heavy rescue type vehicle
- Delivers Med Gas, mounts PPE and monitoring devices on rail and off the floor
- Complete Integration with FERNO Intraxx components

Architectural Headwall Systems

Applications:

ICU

NICU

PACU

Transitional

Step-Down

Patient Rooms

LDR Post-Partum

Key Features

- Easily configurable, scalable and adaptable
- Ergonomic placement of services to minimize caregiver bending and reaching
- Integrated workflow components to facilitate charting, eliminates unnecessary steps and simplifies bedside patient care
- Flexible storage and equipment organization options; compartments that adapt to clinician needs
- Easy to clean, reveal-less and faceplate-plate design
- Streamlined installation; headwall is assembled at the factory and shipped pre-wired and pre-plumbed with integral leveling system

Applications:

ICU

NICU

Applications:

ICU

NICU

PACU

Transitional

Step-Down

Patient Rooms

LDR Post-Partum

Key Features

- Easily configurable, scalable and adaptable height and width
- Ergonomic placement of services to minimize caregiver bending and reaching
- Integrated Equipment Management Rail System to facilitate change and optimizes bedside workflow
- May be recessed with only 3rd depth in the wall and less than 1st reveal on the surface. May be surface mounted as well.
- May incorporate back-lit artwork and high-style finishes.

Applications:

ICU

NICU

PACU

Transitional

We are challenged with providing APPROPRIATE critical care environments in nontraditional spaces. Paladin Healthcare LLC can deliver total solutions for fixed and mobile conditions, with a VERY short installation time. Self-contained high-volume oxygen systems, battery powered suction devices and all aspects of PPE managed in small footprint mobile or rail mounted systems.

Visit our **COVID-19 SURGE** page on our web site www.paladinhc.com for more information.

CHALLENGE:

Mounting equipment directly to the wall is a costly proposition when changes need to be made.

The inevitable changes damage finishes and furnishings that often cannot be repaired—Corian, wall covering, laminate, veneer, etc.

SOLUTION:

Create and support a highly functional clinical environment now and make changes for decades to come without lost patient room revenue.

The “Evolution” Medical Equipment Management Rail System provides for nearly unlimited reconfiguration of equipment and accessories. Simply unlock the adapter and items snap-on and snap-off at will.

Easily make any necessary changes while the patient is in the room and without compromising their safety or comfort.

- Compatible with large scale equipment management tools from GCX, Human Scale, Ergotron, and many others
- Make changes without moving patients. No lost patient stay revenue.
- Complete new product changes in days instead of weeks or months.
- Proprietary embedded anti-microbial technology in our plastic adapters and powder coated items.

CHALLENGE:

- Hidden and Mismanaged Supplies
- Wasted Inventory
- Cluttered Floor Space
- Inflexible Wall-mounted Equipment
- Difficult to clean

When every second counts, it's critical to have what you need, where you need it, when you need it.

BEFORE

SOLUTION:

The “Evolution” equipment rail system

- Par level inventory that's quickly visible and easy to access
- Clear floor space that's easy to clean
- Equipment and supplies that can be moved at will for optimum workflow, without facility damage

AFTER

CHALLENGE:

The day after open house, medical facilities are besieged with clinical operations realities. Often times the critical management tools were “Value Engineered” out of the project, leaving the staff to work around and “deal with” what’s in place. They have no means to define and manage the space and equipment they need.

SOLUTION:

Utilizing the “Evolution” Medical Equipment Management Rail System empowers the Clinical Staff to easily adapt and make changes to items normally fixed in place. They can create and define an optimum working environment without additional construction.

Furthermore, a neat, organized environment creates a positive impression on the patient’s and family’s perception of care.

Optimized patient care is a win-win-win for user teams, patients, and administration.

- Create user defined space now and for decades of changes to come
- Attach and move clinical tools including monitors and computer equipment without damage to the walls
- Multiply and change locations of medical gasses
- Support LEAN initiatives and manage inventory control
- Clear floor space at the bedside with IV pole management

CHALLENGE:

Digging for supplies with gloved hands breeds issues of:

- Cross-contamination
- Hospital Acquired Infections
- Wasted time

Inventory systems are plagued by “First-In, Last-Out” syndrome. Unused materials become expired or cannot be restocked into Clean Supply creating wasted inventory costs.

SOLUTION:

Implementing the “Evolution” Medical Equipment Management Rail and Accessories System improves cost and work-flow efficiencies and infection control. It reduces the risks of cross-contamination, the acquisition of HAI’s, the wasted expense of expired and unused materials, and wasted time.

LEAN supply inventory management at the bedside provides clinicians with:
 WHAT THEY NEED
 WHEN THEY NEED IT
 WHERE THEY NEED IT
 IN QUANTITIES THEY NEED
 Permanently reduce waste from over purchasing and from items that cannot be restocked into Clean Supply.

- Clips, Hooks, Bins, and Baskets of varying sizes and multi-use purposes
- Clear bins for quick visual identification of stock for supplies
- Embedded anti-microbial agents in all plastic adapters and powder coat painted finish
- Snap-on, snap-off features for easy relocation and reorganization of supplies
- Flexible, Adaptable, Expandable for additional organizational accessories as needed

CHALLENGE:

How can we ensure that we design and build the best possible solution for our clinical team partners?

Is this the best we can do?

Or this?

Of course not!
 Yet it's the standard of practice.

SOLUTION:

Place all hand washing compliance and infection control accessories on the rail.

Studied and published by the Center for Health Design in 2012: the evidence based recommendation is to create a standard directional flow with easy access to sink and hand washing accessories at the room entry by "...placing the hand washing accessories on an equipment rail allows adjustment in the system without creating damage to the wall and potential home for pathogens."

CHALLENGE:

The dangers of contagious infectious disease are very costly problems that can have deadly results. With or without a rail system, if the walls are not stripped bare of all their elements, infectious diseases have places to hide. This method is unacceptable.

SOLUTION:

Experts agree that the best Terminal Cleaning Solution requires bare walls, and free access to all surfaces.

True Terminal Cleaning is only possible with the ability to remove ALL equipment and materials from the walls without leaving holes in the walls, without cleaning around wall mounted items, without leaving places for infection to hide.

If you can not remove it, you can not clean it!

True Terminal Cleaning looks like this.

Complete Design Services, including AutoCAD, REVIT / BIM and 3D Renderings!
